Award Process, Contracts, and Amendments

a. Award Procedures

Agencies awarded Mental Health Board funds shall receive notification regarding program allocation(s). This will state the amount of the funds awarded, the effective time period of the award, and the services/program/project to be delivered utilizing the funds.

b. Contracting Format and Implementation Procedures

Once allocations are authorized by the Mental Health Board, the Executive Director will implement the funding plan and initiate the contracting process. The contract shall include the boilerplate (standard language and provisions applicable to all contracts), the program work plan, and required financial information. Within the context of the final allocations, the Executive Director is authorized to negotiate and complete the contracts, budgets, and work plans. Execution of the contracts requires signatures of the respective Executive Directors and Presidents. The contract period is March 1 – February 28. A work plan will be established as part of contract execution to outline outcomes and parameters for the delivery of service. These documents are executed by the Authorized Designees and may be subject to amendment per Mental Health Board approval.

c. Mental Health Board Contracts

The contract format decision rests with the Mental Health Board and is based on the appropriateness of the format with the objectives of the program plan.

i. Standard Grant Contract

Payment is predicated on the budget and obligations associated with the contract. Typically, payments are divided into equal monthly amounts over the term of the contract. If approved by the Board, grant contracts may include a one-time lump sum payment or be adjusted to a payment schedule that works best for the service provider as needed. Reconciliation of payments to actual expenditures shall be submitted to the Mental Health Board at six months and at the end of the Mental Health Board's fiscal year, and unspent dollars will be returned to the Mental Health Board by March 31 following the Mental Health Board's February 28 fiscal year end. Accountability is tied to defined outcomes, performance measures, and service data. Grants are typically funded to ensure access to a particular level of care or to underwrite the cost of infrastructure needed for the program.

ii. Emergency Funding Requests

The Mental Health Board can accept Emergency Funding requests at any time throughout the fiscal year. Emergency Funding awards are subject to availability of funds and Board approval. Any Emergency Funding Requests will be reviewed and approved or denied by the Board at their next regularly scheduled meeting.

iii. Intergovernmental Agreement

The Mental Health Board, at its discretion, may enter into an intergovernmental agreement with other units of government for the delivery of services or network enhancements.

d. Contract Amendments

The need for a contract amendment is driven by a change in conditions delineated in the original agreement. The provider is required to report changes that modify the administrative structure and/or implementation of the work plan. It is recognized that programs are dynamic, and it is prudent to make program adjustments to better meet overall goals and objectives. Contract amendments shall be carried out pursuant to the Mental Health Board's Contracts – Funding Allocation policy.
